

**Amendments to the Specification**

Please amend the third full paragraph at page 13 of the specification (page 13, lines 25-28) to read as follows:

It is also possible to fix the particle 6' in a cavity in the tablet open on both sides, such as e.g. in a cylindrical hole 4' passing through the tablet body 1' and in which is fixed a corresponding, cylindrical particle 6' having a core 8' and an envelope 9' (figs. 5a and b).
